

Sharing a Passion for Providing Exceptional, Comprehensive Care

At the Cincinnati Children's Fetal Care Center, our experts in maternal-fetal medicine, neonatology and fetal surgery share a passion for providing exceptional, comprehensive care. Our team, led by physicians from Cincinnati Children's, TriHealth and University of Cincinnati Medical Center, specializes in treating complex and sometimes rare prenatal conditions. Our extensive experience, coupled with our clinical and basic science research to improve fetal care, enables us to provide the most sophisticated and effective therapies available.

Kara B. Markham, MD

Maternal-Fetal Medicine Specialist

markhakb@ucmail.uc.edu

Mallory Hoffman, MD

Maternal-Fetal Medicine Specialist

mallory_hoffman@trihealth.com

As we explore the unique challenges and opportunities facing each patient and unborn baby, we often provide unexpected treatment options that offer real hope.

We offer care in an atmosphere of compassion, knowing that patients and families are sometimes facing decisions about their future. Collaboration is at the heart of our approach. Patients, family members and referring physicians are all part of our team, and we encourage referring physicians to contribute their own insights to the patient's care.

Nursing

Kimberly Burton, MSN, MBA, RNC-NIC
Clinical Director

Jessica Desch, RN, BSN
Obstetrics Nurse
